

Practice management solutions you can rely on.

Your Resource in a Complex Environment

At Schenck, our team focuses on providing operational, financial and long range planning and management consulting to the health care industry. With dozens of dental practice clients throughout Wisconsin and the Upper Peninsula of Michigan, you can rely on us not only for accounting and tax expertise, but as a source of experienced guidance. We work together with you to reach your goals for your practice.

Whether you are concerned about the latest dental insurance coverage twist, patient confidentiality under HIPAA, your accounts receivable, adding a partner, turning your practice over to a successor, or just the day-to-day operations and finances of a busy practice, you will have the resources of well over 200 years of combined practice management experience at your disposal. You'll also have access to investment management and estate planning professionals to prepare for the day you move on to your "next" career.

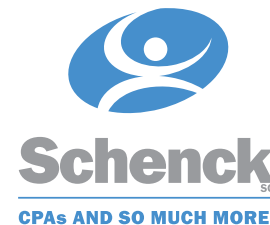

An Understanding of Your Needs

Although the management of a dental practice has much in common with other health care practices,

certain aspects are unique. That's why you'll want to turn to Schenck. Our extensive background working with dental practices and providing products and services designed for the industry has resulted in an in-depth understanding of the business challenges you're likely to face.

We're here as a partner in your practice success—not just your accounting firm, but a resource for insight, education and tools to better manage your practice. From practice sales to accounting services to computer system selection and support, Schenck's experienced professionals take the burden of managing a practice off your shoulders so you can spend your time doing what you do best—practicing dentistry.

For more information on how we can help you, simply fill out the attached card and drop it in the mail, or call 800-236-2246 and one of our experienced consultants will be happy to answer your questions or schedule a no cost or obligation meeting.

To learn more about our practice management solutions, visit us online at schencksc.com/health or call 800-236-2246.

I'd like to learn more about how Schenck can help me spend more time caring for my patients and less time managing my practice.
